Midterm 3 Info

Math 403 Euclidean Geometry

Fall 2021

- **Time and Place**: Nov. 17, 2021 in class (12–12:50pm).
- **Coverage**: Sections 3.1–7 and 4.1 (up to the material covered in Wednesday class (Nov 10)).
- No book or notes are allowed. Using calculator is okay, but will not be helpful.
- **Types of problems** may include:

  1. Stating definitions

  2. Stating theorems covered in class

  3. True and False

  4. Giving examples

  5. Calculation using the concepts and theorems

  6. Proofs that we have done in class, or homework, or quizzes

  7. Proofs that we didn't covered in class (in this case, the proof will be relatively short and direct from definition)
