

Final Exam Info

Math 403 Euclidean Geometry

Fall 2021

- **Time and Place:** Dec. 10, 2021, 100 min (9:00am–10:40am), the usual classroom.
- **Coverage:** Cumulative. Mostly based on practice problems, previous midterm exams, homeworks, and quizzes.
- **Review:** On Mon (12/6) and Wed (12/8).
- No book or notes are allowed.
- **Types of problems** may include:
 1. Stating definitions
 2. Stating theorems covered in class
 3. True and False
 4. Giving examples
 5. Calculation using the concepts and theorems
 6. Proofs that we have done in class, or homework, or quizzes
 7. Proofs that we didn't covered in class (in this case, the proof will be relatively short and direct from definition)
